

# Neurosciences

*Reporting developments in basic and clinical Neuroscience*

## CALL FOR PAPERS

The Neurosciences Journal calls for submission of manuscripts from members of all Neuroscience specialties. All submitted papers received are treated as VIP manuscripts and peer-reviewed before publication.

**Neurosciences is a peer-reviewed open-access quarterly publication whose mission is to publish articles reporting the latest developments in basic and clinical neuroscience, enhancing patient care, and promoting future research and education.**

The journal welcomes submissions reporting original work on the latest research in the Neurosciences field. Review articles of current local and regional interest are also welcomed and encouraged, and there are sections for Case Reports, Brief Communication, Clinical Notes, and Correspondence. The journal also includes book reviews, MCQ's, meeting highlights, and an academic calendar of upcoming events. All material appears in both our print and online issues. All articles received will be subject to the normal journal processing and selection procedures, and must adhere to journal guidelines.

**All published research papers will be indexed online:**

- **PubMed**
- **Thomson Reuters (ISI) Web of Knowledge Science Citation Index**
- **EMR Index Medicus**
- **EMBASE**
- **BIOBASE**

Neurosciences is committed to upholding the highest standards of research, editorial and publication ethics, and is a member of the Committee on Publication Ethics (COPE). All submitted manuscripts, or the essence of their content, must be previously unpublished and should not be under simultaneous consideration by another journal. Our system automatically checks for duplicate publication/plagiarism, so authors should declare if any similar work has been submitted or published by another journal. If detected, appropriate action will be taken in accordance with international ethical guidelines.

**Advantages of publishing with Neurosciences:**

- **Open Access journal with articles freely available to download, read, and redistribute**
- **International online indexing**
- **International peer-review**
- **Papers published on average 6 months after initial submission**
- **Papers normally published in the next available issue**
- **No submission or processing fees**
- **Dedicated, friendly, professional editorial team working together to improve the overall quality of publications**
